iGo Universal Laptop Chargers Provide Industry-Leading Features at Prices up to 33% Less Than Competing Chargers

SCOTTSDALE, Ariz., Jun 08, 2010 (BUSINESS WIRE) --Usually consumers have to make a choice between low price and high quality, but not when it comes to laptop chargers. Thanks to iGo(R), Inc. (Nasdaq: IGOI), a leading provider of eco-friendly power solutions, consumers can get best-in-class universal laptop chargers at prices up to 33% lower than comparable products.

The low-cost [iGo Slim Laptop Wall Charger](#) (MSRP: \$79.99) offers consumers an ultra-slim and light charger that is less than $\frac{2}{3}$ of an inch thick and weighs approximately 11 ounces. Similar chargers retail for as much as \$119.99.

For the environmentally-conscious consumer, iGo offers the [Laptop Wall Charger with iGo Green\(R\) Technology](#), which virtually eliminates [Vampire Power](#) (electricity that is drawn by electronic devices when they remain plugged into an outlet or charger, but are not in use). The winner of a 2010 [Best of CES award from LAPTOP magazine](#), this charger also includes a built-in USB port so that two electronic devices can be powered simultaneously. No other laptop charger on the market reduces wasteful Vampire Power, and with an MSRP of \$99.99, the Laptop Wall Charger with iGo Green Technology sells for up to \$20 less than standard, non-green chargers, allowing consumers to save energy and save money at the same time.

For consumers who need to charge a laptop away from their home or office, the versatile [iGo Slim Laptop Travel Charger](#) (MSRP: \$99.99) can be used from any standard wall, auto or airplane power outlet, and sells for up to \$40 less than competing chargers. Add Vampire Power-slaying capabilities with [The Slim Laptop Travel Charger with iGo Green Technology](#) for only \$129.99.

All of iGo's laptop chargers provide a full 90 watts of power and are compatible with more than 95% of the laptop PCs on the market today.

iGo chargers are available at <http://www.igo.com> as well as major retailers such as RadioShack, Walmart, Office Depot and OfficeMax.
