

Press Release

iGo(R) Expands Access to SMB Market With Addition of Office Depot(R) to its Distribution Network Key Accounts OfficeMax(R) and Office Depot Represent More Than 2,000 Locations Serving the Small- and Medium-Business (SMB) Market

SCOTTSDALE, Ariz., May 06, 2010 (BUSINESS WIRE) --iGo, Inc. (Nasdaq: IGOI), a leading provider of eco-friendly power management solutions, today announced that Office Depot is adding iGo laptop chargers to its 1,100 locations nationwide. Combined with the more than 900 OfficeMax locations that began carrying iGo chargers in the fall of 2009, iGo now has a substantial presence in two of the largest office superstore chains.

Office Depot will carry the Slim iGo Laptop Wall Charger and the Laptop Wall Charger with iGo Green(R) Technology that virtually eliminates wasteful [Vampire Power](#) (electricity that is drawn by electronic devices when they remain plugged into an outlet or charger, but are not in use).

OfficeMax carries a full line of iGo products, including the Laptop Wall Charger with iGo Green(R) Technology and a variety of other mobile device and laptop chargers.

iGo's laptop chargers lead the market in terms of size, price and feature set. From the ultra-slim Laptop Wall Charger with an MSRP of only \$79.99 to the only Vampire Power-reducing laptop charger on the market (MSRP \$99.99), iGo continues to innovate and set new standards for the industry. In addition, the Laptop Wall Charger with iGo Green(R) Technology also includes a built-in USB port so that two electronic devices can be powered simultaneously.

"We are very pleased that our direct sales efforts have produced a strong presence for iGo products in the small- and medium-size business market," said Michael D. Heil, President and Chief Executive Officer of iGo. "We also believe the office superstore channel will greatly extend our reach into the consumer market as well. We are steadily building our distribution network and increasing our ability to reach our targeted customers."

About iGo, Inc.

iGo, Inc., based in Scottsdale, Arizona, is a leading provider of power management solutions, including eco-friendly chargers for laptop computers, netbooks and mobile electronic devices (e.g., mobile phones, PDAs, digital cameras, etc.). All of these chargers leverage iGo's intelligent tip technology, which significantly minimizes electronic waste by enabling one charger to charge hundreds of brands and thousands of models of mobile electronic devices through the use of interchangeable tips. iGo is also the creator of a new, innovative patent-pending, power-saving technology that automatically eliminates virtually all wasteful and expensive standby or "vampire" power that is generated from chargers that continue to draw electricity when a mobile electronic device no longer requires charging or is disconnected from the charger.

iGo's products are available at <http://www.igo.com> as well as through leading resellers and retailers. For additional information call 480-596-0061, or visit <http://www.igo.com>.

This press release contains "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934. The words "believe," "expect," "anticipate," "should," and other similar statements of expectations identify forward-looking statements. Forward-looking statements in this press release include the belief that the office superstores are an excellent complement to accounts that target the consumer market. These forward-looking statements are based largely on management's expectations and involve known and unknown risks, uncertainties and other factors, which may cause the Company's actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. Risks that could cause results to

differ materially from those expressed in these forward-looking statements include, among others, the timing and success of product development efforts and new product introductions, including internal development projects as well as those being pursued with strategic partners; the timing and success of product developments, introductions and pricing of competitors; the timing of substantial customer orders; the availability of qualified personnel; the availability and performance of suppliers and subcontractors; the ability to expand and protect the Company's proprietary rights and intellectual property; the successful resolution of unanticipated and pending litigation matters; market demand and industry and general economic or business conditions; and other factors to which this press release refers. Additionally, other factors that could cause actual results to differ materially from those set forth in, contemplated by, or underlying these forward-looking statements are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 under the heading "Risk Factors." In light of these risks and uncertainties, the forward-looking statements contained in this press release may not prove to be accurate. The Company undertakes no obligation to publicly update or revise any forward-looking statements, or any facts, events, or circumstances after the date hereof that may bear upon forward-looking statements. Additionally, the Company does not undertake any responsibility to update you on the occurrence of unanticipated events which may cause actual results to differ from those expressed or implied by these forward-looking statements.
