

Press Release

iGo(R) Launches Premium Accessories Line at iGo.com

iGo Accessories Join iGo's Family of Portable Power Solutions

SCOTTSDALE, AZ, Apr 09, 2009 (MARKET WIRE via COMTEX) -- iGo, Inc. (NASDAQ: IGOI), a leading provider of innovative portable power solutions, today launched their Premium Accessories line at www.iGo.com. Featuring an international travel adapter, a laptop cleaning kit and a multi-card reader, iGo's accessory line is designed with the consumers' lifestyle needs in mind.

"Expanding with an accessories line perfectly complements our already successful multi-device chargers," said Michael D. Heil, president and chief executive officer of iGo. "With the international travel adapter, laptop cleaning kit and the multi-card reader, iGo is giving consumers what they need to make both traveling and their and daily lives easier."

iGo international travel adapter (MSRP \$24.99) is an easy-to-use 4-in-1 international adapter for North America, South America, Australia, New Zealand, Great Britain, and Europe. The intuitive, all-in-one and compact design makes it simple to select the correct plug and eliminates loose parts that can be easily lost. The lightweight iGo international travel adapter features a USB power port to enable any iGo charging option.

iGo laptop cleaning kit (MSRP \$24.99) includes a patented triangular screen cleaner with ergonomic handle, an innovative blower for removing dust and a unique keyboard cleaning pen that effectively cleans keyboards and hard to reach areas. Enclosed in a compact and portable hard case, the iGo laptop cleaning kit is a complete cleaning solution to remove dust, lint, oil and smudges from a laptop, netbook or desktop.

iGo multi-card reader (MSRP \$19.99) connects to any computer's USB port to read 39 different memory card formats including SDHC, MMC 4.0, SD, miniSD, microSD and more. The reader/writer supports USB 2.0 and also features a dedicated microSD slot to reduce the need for additional adapters. The multi-card reader makes it a breeze to upload and download data, while its compact size makes it easy to pack and store.

The international travel adapter, laptop cleaning kit and multi-card reader are available www.iGo.com. This summer, iGo will launch iGo Green Technology products that automatically use 80% less standby power than standard power products. Featuring the first green laptop charger, a surge protector and a wall outlet, using one iGo Green charger and interchangeable tips eliminates the need for multiple chargers and reduces landfill waste.
