Troubleshooting
Before contacting customer support, here are some common resolutions to problems:

- Do you have the right tip for your device? Check iGo.com for the latest compatibility.
- Check to ensure connection to power source is secure and that there is power at the source.
- Check the connections to the device and tip to ensure they have not come loose.
- Ensure you have the correct tip and all connections are secure, then unplug unit from power source, wait 5 seconds, then plug back in.
